22nd of September 2010

To whom it may concern,

On the 2nd of September 2010 Kathy Possum came to visit our centre, each parent was asked to pay \$7 for her visit which I thought was not a great ask. Our centre caters for children from birth through to 12 years of age however the performance targeted children from 2-5 year olds.

We do not get many visitors to our centre due to our rural and remoteness. The children were very excited leading up to the show and even more excited after it. They talked about the Toad in the Lunch Box, the Kookaburra's, the Crocodile, and the fact that they could get up and dance and sing with her, for days some even weeks after the performance.

Kathy Possum's show is a realistic performance, based on what the children in the outback know. She taught the children about Australia the land in which we live. Some of the children had never been to the city so she taught them about the city as well as the outback. She also taught them about our prehistoric animals and how they lived a very long time ago.

I would really like to invite Kathy Possum back to our centre for many years to come and I am sure that with some more advertisement we could also include the Kindergarten and the school.

Regards

Amanda Condren
Director
