Dear Kathy Possum

It's great to hear form you. The children and staff have not stopped talking about the show, "Kathy Possum's, Walkabout Australia Tour". The children enjoyed all the different Australian animals used throughout the show. They loved the songs, instruments and the puppets.

We all loved how you involved everyone into the show. We loved singing and dancing with you and your puppets. The show was extremely informative, entertaining and relevant to the learning of the children's Australian native environment and our culture. We believe the children came away from the show with detailed knowledge and stories to tell parents/caregivers on what they learnt and enjoyed about the show. The looks on their faces, was priceless.

We believe these presentations are important for children's development and we wish they were more available to our local area, as we feel our children miss out on these experiences due to our location. We become very excited when we can become involved in these shows and when ever we can be involved we greatly support having them come to our centre.

We thankyou for coming to our centre and we would love to have you back and we would recommend you to other centres as your show was, fantastic.

Thankyou and all the best

Amanda Stephan  
Director
